

SUBDIVISION

AUGUST 2014

- Preliminary Plan
- Final Plat

A: SUBDIVISION APPLICATION OVERVIEW

GENERAL INFORMATION

This packet outlines the procedures and submittal requirements necessary to obtain subdivision approval within the City of Austin jurisdiction (full-purpose, limited-purpose city limits, and extra-territorial jurisdiction). The regulatory requirements and procedures for approval are defined in:

- the Texas Local Government Code 212.004
- Septic Code: Chapter 48, Travis County Rules for On-site Sewage Facilities and Texas Administrative Code Title 30 Chapter 285
- Volume III, Chapter 25 of the Code of the City of Austin (for areas in the full purpose city limits), and
- Volume IV, Title 30 of the Code of the City of Austin (for areas in limited purpose city limits and the 2 and 5 Mile extra-territorial jurisdiction or ETJ in Travis County).

Chapter 25 and Title 30 were adopted by City Council in order to protect the health, safety and welfare of the Austin community. Under Title 30, a single submittal is reviewed jointly by both the City of Austin and Travis County for subdivisions that are under the jurisdiction of both entities.

Additional information about the subdivision process and code requirements can be obtained prior to submitting a subdivision application by contacting the Development Assistance Center (DAC) on the first floor of One Texas Center, 505 Barton Springs Road, phone 974-6370, or by visiting the City of Austin's Development Process and One- Stop Shop website at <http://www.austintexas.gov/development>. In addition, applicants are encouraged to contact Travis County for additional information regarding subdivision applications in the Limited Purpose, 2 and 5 Mile ETJ. Also if your subdivision will be using any type of septic system, a separate septic plat review application is required; contact Travis County Permit Office at 512-854-4215. The City of Austin encourages people considering a subdivision to utilize a development assessment to determine plat/plan requirements and project feasibility prior to a full submittal. (See Section B, Step 1 below for more information).

WHAT IS A SUBDIVISION?

Pursuant to the requirements of Section 212.004 of the Texas Local Government Code (TLGC), the subdivision of land is required when a property owner within either the City limits or extra territorial jurisdiction divides a tract of land into two or more parts for the purpose of sale, development, or extension of utilities to the property to be subdivided. Additional types of subdivisions include combining legal lots and/or portions of lots into new lots by resubdivision, or adjusting lot lines between existing legal lots by amended plat.

WHAT A SUBDIVISION IS NOT

A subdivision is not zoning. If the owner wants to change the permitted land uses on a property in the city limits, the developer may have to go through the rezoning process (see application packet #2). A subdivision is not a site plan or building permit and does not authorize the construction, demolition, or relocation of buildings or any site construction.

WHEN IS A SITE EXEMPT FROM THE SUBDIVISION PROCESS?

Chapter 25-4-2 of the Land Development Code lists out the requirements needed to obtain an exception from platting through an application known as a Land Status Determination. A Land Status Determination is an official written determination made by the City of Austin (obtained on the 1st floor in the DAC) that exempts unplatted or illegally platted tracts of land from the State platting requirements. Texas Local Government Code prohibits municipalities from granting the extension of utilities to unplatted or illegally platted tracts of land ("illegal lots"). The City Code also states that a subdivision or a Land Status Determination will be required for lots that have not been legally subdivided before the following applications can be approved; utility taps, building permits, and commercial site development permits. In addition, for information regarding exemptions in areas outside the corporate limits, applicants should consult Title 30-2-2, 30-2-3, and 30-2-4 or contact:

Travis County -Transportation and Natural Resources – Development Services

411 West 13th Street, 8th Floor

Austin, Texas 78767-1748

Phone: (512) 854-9383

Fax: (512) 854-4649

WHO APPROVES SUBDIVISION APPLICATIONS?

Administrative Approval

If approval by the Land Use Commission is not required per Chapter 25-4-84 or Title 30-2-84, the Director of Planning and Development Review, and the Travis County Executive Manager in the ETJ, may approve the subdivision administratively. The main types of administratively approved subdivision applications are amended plats; final plats that consist of four or less lots that have frontage on an existing street and that do not require a variance; and minor deviations and minor revisions to preliminary plans.

Land Use Commission and Travis County Commissioners Court Approval

Some types of subdivisions cannot be approved administratively and require a public hearing. These include: Resubdivisions; Preliminary Plans; final plats that consist of five or more lots; and subdivisions requiring a variance. Under Sec. 25-4-84, the Land Use Commission must approve these types of subdivisions in the full purpose city limits. Under Sec. 30-2-84, both the Land Use Commission AND the Travis County Commissioners Court must approve these types of subdivisions located in the extraterritorial jurisdiction and limited purpose jurisdictions.

B. SUBDIVISION REVIEW PROCEDURES

The procedures for review and approval of Subdivision applications are based on Volume III, Chapter 25 and Title 30 of the City of Austin Code. The process is summarized below.

Step I: DEVELOPMENT ASSESSMENT (Optional)

A person may request an assessment of a proposed development *prior* to formal submittal by contacting the Development Assistance Center (DAC). The assessment is based on the information provided by the applicant at the time that an assessment is requested. An assessment of the project includes applicable code requirements pertaining to the site and identification of major development issues. A Development Assessment application (Application Packet #01) can be submitted any work day with an appointment to the Intake Office.

Contact:

One Stop Shop – Development Assistance Center

505 Barton Springs Road, 1st Floor

Austin, Texas 78704

Phone: (512) 974-6370

Fax: (512) 974-6305

STEP 2: COMPLETENESS CHECK

In order to submit a subdivision application for review, the application must be submitted for Completeness Check. The Completeness Check must be submitted to the **Intake** staff. **Completeness Check hours are from 8:30am to 10:30 am Monday- Friday.** No appointment is necessary. Intake reviews the application and pertinent information to determine if all required administrative items have been submitted. Intake then forwards it to the completeness check team, which determines whether the technical items needed for review have been submitted.

An application for completeness check must include:

- Subdivision Application
- \$200.00 review fee (check, cash, money order or credit card)
- 2 copies of the subdivision plat or plan
- All Items listed on the completeness checklist, located in the Intake Office and available online at <http://www.austintexas.gov/page/land-use-applications#sub>

The completeness check review takes a maximum of 10 business days from the date of submittal. The applicant will be notified via e-mail or fax whether the application is approved or additional information is required for submittal. When the application packet is approved, the plans can be formally submitted for a detailed review. When the application is formally submitted, the \$200 completeness check fee is credited to the application fee. **The application must be submitted formally within 45 calendar days of the initial completeness check or it will expire and a new completeness check will be required.**

One Stop Shop: Land Use Review - Intake Section

505 Barton Springs Road – 4th Floor

Austin, Texas 78704

Phone: (512) 974-2681 or (512) 974-2350 or (512) 974-7208 or (512) 974-2689

Fax: (512) 974-2620

Travis County: -Transportation and Natural Resources - Development Services

411 West 13th Street, 8th Floor

Austin, Texas 78767-1748

Phone: 854-9383

Fax: 854-4649

STEP 3: FORMAL SUBMITTAL REVIEW PROCESS

The next step is to submit the Subdivision application packet to Intake to start the review process. Electronic copies of the application packet are available online at:

http://www.austintexas.gov/sites/default/files/files/Planning/Applications_Forms/subdivision_application.pdf

Applications may be submitted to Intake Monday through Friday. **An appointment is necessary. Please contact Intake at one of the numbers listed above to schedule an appointment. For submittal, the applicant will need to provide up to 19 additional copies of plans and 3 bound engineering reports along with the remaining balance of the fee (which will be listed on the completeness check response). For applications in the Travis County ETJ or limited-purpose jurisdiction, two complete copies of the application packet and related materials must be submitted in addition to the plans. If the subdivision will require any type of septic system in Travis County, a separate septic plat review application is required; contact Travis County Permit Office at 512-854-4215.**

Electronic submittal of CAD files and other documents is also required for the initial submittal as described in Exhibit VII. A final version of the plans and reports incorporating all changes made during the review process must be submitted electronically prior to approval of the subdivision.

A Case Manager with the City of Austin or Travis County is assigned to coordinate interdisciplinary reviews and provide guidance on code requirements and procedures. A review team is also assigned to the project. The team reviews the plans and prepares a Master Comment Report that contains specific areas of non-compliance. The initial review of the plans by the team can take up to 28 days from the date that the plans were formally submitted. If the subdivision complies with the provisions of the code and other applicable state and federal regulations and Commission approval is not required, the subdivision will be approved administratively. The Master Comment Report will be sent to the applicant electronically or by fax. The Master Comment Report can also be viewed on the City of Austin website:

<http://www.austintexas.gov/page/interactive-development-review-permitting-and-inspection>

STEP 4: UPDATE

If it is determined that the subdivision does not comply, after the initial review, the applicant must file an update in order to bring it into compliance. All ETJ and Limited Purpose applications require formal updates. **Contact Intake staff to schedule an appointment to submit the update.** Staff reviews the updates within 14 days of receipt, and the Case Manager will issue additional Master Reports identifying remaining items to be addressed. Updates will be required until the subdivision is in compliance or the subdivision expires.

Updates to the plan must be filed by the applicant within 180 days after the subdivision has been filed. An applicant can request an extension to the 180 day update period if the request is made prior to the 180 day deadline. The request must be made in writing and the reason for the extension should be specified. Extensions may be granted for good cause at the Director's discretion for up to 180 days. The total life of the application (including extensions) cannot exceed 360 days.

STEP 5: SUBDIVISION APPROVAL AND RECORDATION

Once all Code requirements have been met, the Case Manager will notify the applicant that the subdivision can either be approved administratively or scheduled for Land Use Commission approval if necessary. If Commission approval is necessary, the Case Manager will inform you of the date and time of the public

hearing. Notification for some types of Commission-approved subdivisions can require as much as 21 days notice (resubdivisions), whereas others require no notification. Please contact your case manager to find out how much notice your subdivision will require. In addition, if the subdivision is located in Limited Purpose or the ETJ, and the subdivision is not administrative; it will also be required to be scheduled for Travis County Commissioners Court. Additional notice for commercial subdivision will be required as well. If the subdivision will require septic review, a signature from Stacy Scheffel on the subdivision will be required prior to requesting commission approval. Please note that prior to subdivision approval all fees must be paid. Additional fees may include items such as: Parkland Dedication, Variance, Notification, Water/Wastewater, and Street Lighting. If fiscal surety is required, it MUST be posted no later than 90 days from the date of approval or the plat will automatically expire under Sec. 25-4-84(C) or 30-2-84(D). There is no method to extend this deadline.

In cases where Commission approval is required, and the subdivision is located in Travis County in the City of Austin's extraterritorial or Limited Purpose Jurisdiction, County Commissioners Court approval will also be required after the City Land Use Commission approves the subdivision.

After approval of a preliminary plan, the City of Austin and Travis County approval stickers are added and signed, and the process is complete.

Prior to recordation of a subdivision final plat, two photographic mylar copies must be made of the plat (one for the County and one for the City). Original, current County Tax certificates showing the taxes for the previous year have been paid in full, are required prior to recordation. Williamson County also requires an original school tax certificate (obtained from the school district where the site is located), and an owners affidavit (which can be provided by Staff). Once the staff has all the required items, including the recording fees the plat is taken to the County and recorded (this usually takes 2-4 business days). Only City staff can take the plat to the County or pick it up after it is recorded. When the recorded plat is returned to the City, it is then sent to addressing to have addresses assigned to the lots, and is then scanned into the AMANDA database. Once complete, you can pick up your approved original recorded plat at:

One Stop Shop – Document Sales
505 Barton Springs Road, 1st Floor
Austin, Texas 78704
Phone: (512) 974-6370

C. SUBMITTAL INFORMATION & REQUIREMENTS

1. COMPLETED APPLICATION FORM

The application must be complete and accurate prior to submittal.

Section 1: Name and Location

Subdivision Name

Street Location (address or distance from the nearest intersection)

Section 2: Plat Attributes

Most of the following information can be found on the GIS viewer on the City's website:

<http://www.austintexas.gov/GIS/DevelopmentWebMap/>

Jurisdiction/County

This can be found from a jurisdiction map on the 1st floor, or the GIS viewer on the City's website.

Zoning

This can be found on the GIS viewer on the City's website.

Municipal Utility District

Grid Number

This can be found from a Mapsco, a grid map located on the 1st floor, or the GIS viewer on the City's website.

S.M.A.R.T. Housing

S.M.A.R.T. Housing projects include a residential element meeting affordability requirements. A pre-certification letter from Neighborhood Housing and Community Development Department and subsequent pre-submittal meeting is required prior to the site plan application submittal. For more detailed information regarding submittal requirements, expedited timeframes, and discounted fees, please visit <http://www.austintexas.gov/department/real-estate-development>

Desired Development Zone or Water Quality Protection Zone

This can be found on the GIS viewer on the City's website

In a Neighborhood Plan?

To determine whether this site is located within a neighborhood plan, please refer to the following web site <http://austintexas.gov/page/neighborhood-planning-areas> and follow the link to "Neighborhood Planning Areas"

Transit-Oriented Development (TOD) District or the NBG District

To determine whether this site is located within a TOD District, please refer to the following websites:

- <http://www.austintexas.gov/department/transit-oriented-development>. See map of TOD Districts for a citywide view. Refer to "Specific TOD Station Area Planning Pages" at the bottom of this webpage to see detailed maps of the Lamar/Justin, MLK, and Plaza Saltillo TOD Districts.
- <http://www.cityofaustin.org/edims/document.cfm?id=78718>. See the adopted TOD Ordinance for detailed maps of the remaining TOD Districts.

Watershed/In Recharge Zone/Watershed Class

This can be found on the GIS viewer on the City's website

Section 3: Waiver / Variances

Indicate all waivers, variances, or alternatives that are being pursued in this application. Identifying the need for these in the beginning of the process may help prevent delays.

Variances

When requesting a variance, a letter addressed to the Director should accompany the application. The letter shall include the project name, address of the site, description, justification, and appropriate LDC section from which you are requesting a variance. For any properties located in the ETJ and Limited Purpose areas, any transportation, subdivision and drainage variances will require approval from Travis County Commissioners Court. For such variances, request letters must be addressed to Judge Sam Biscoe and Travis County Commissioners.

Section 4: Other Attributes

Water Utility Provider

Provide the name of the water utility provider. For on-site wells, the subdivider shall provide the director with evidence that water suitable for human consumption may be obtained from surface or subsurface sources on the land. The documentation must be prepared by a registered professional engineer and approved by the director of the Water and Wastewater Utility and the Texas Commission on Environmental Quality.

Wastewater Utility Provider

Provide the name of the wastewater utility provider, or indicate if an on-site septic system is proposed.

School District

Provide the name of the school district that this project is located within.

Electric Utility Provider

Provide the name of the electric utility provider.

Section 5: Ownership Information

If other than sole or community property, use the boxes provided or attach a list of the partners /beneficiaries/ principals and their positions.

Section 6: Owner Information

The current owner must sign the application or attach a written authorization for the agent. Be sure all signatures are legible and address information is correct.

Section 7: Applicant Information

If the owner uses an agent or other representative to prepare and submit an application, fill out this section. If an agent is designated, this is considered the Applicant and will be PDR's primary contact.

Section 8: Engineer Information Section 9: Surveyor Information

Section 10: Related Cases

Provide the file numbers which relate to applications on this property that have been filed in the past.

Section 11: Proposed Land Use

State the proposed land use for each lot, as well as the number of units (if multi-family), and acreage.

Section 12: Description of Proposed Subdivision

Provide a summary description of the proposed subdivision and the reason why the property is being subdivided. This will help the reviewers to get a better understanding of the subdivision prior to reviewing the application. Many times this helps answer questions, and reduces the number of review comments. An example might be: "A plat vacation application and replat application have been submitted in order to vacate the current plat (removing the 25' front building line), and then replat the lot in order to construct a new duplex."

Attached Forms:

- Owners Acknowledgment
- Engineer's Certification

- Surveyor's Certification
- Acknowledgement Form: The applicant should carefully check these records before signing the attached Acknowledgment Form. Plat notes are shown on the face of the subdivision plat. Plats are available at the City or the Courthouse. Deed restrictions are recorded at the Courthouse, if you do not have them in your possession.

ADDITIONAL REQUIREMENTS

1. TAX PLATS

Provide one blueline copy of each of the current tax plats, showing all properties within 500 feet of the tract or limits of construction. Include all maps referenced within the 500 feet. Outline the tract or limits of construction in red.

(DO NOT SPLICE MAPS TOGETHER)

Tax plats are not required for small projects except when a variance or waiver is requested. Tax plats can be obtained from:

Hays County: Hays County Clerk's Office, 137 N. Guadalupe St., San Marcos, phone: (512)393-7330;

Travis County: Travis Central Appraisal District, Walnut Creek Business Park, 8314 Cross Park Drive, Austin (Hwy 290 East and Cross Park Drive), phone: (512)834-9138. Tax plats for Travis County may be printed from T-CAD online (www.traviscad.org).

Williamson County: Williamson County Clerk, Justice Center Building, 405 Martin Luther King St., Georgetown, phone: (512)943-1515.

For projects located outside of Travis County, submit a list of names and addresses of all property owners within a 500-foot radius of the tract.

2. TAX CERTIFICATE

Tax certificates can be obtained from:

- Hays County: Hays County Tax Assessor Office, 102 N. LBJ Dr., San Marcos;
- Travis County: Travis Central Appraisal District, 8314 Cross Park Drive, Austin, Texas, 78754.
- Williamson County: Williamson County Tax Assessor/Collector Office, 904 S. Main St., Georgetown. The tax certificate should indicate that there are no taxes owed.

3. LOCATION MAP

Provide a 4" x 4" location map on a separate 8-1/2" x 11". It should be centered on the project, have a North arrow, and note "not to scale."

4. 8 ½ X 11 (Letter-sized) REDUCTION OF SUBDIVISION (DIMENSION CONTROL) PAGE

Include a letter-sized copy of the subdivision page only. This will be included in the distribution packet, which is viewable online.

5. PDF FILE

For subdivisions requiring Travis County approval: A PDF file of plat, location map and any other documents which are required to be included in the reports submitted to Travis County Commissioners for agenda packet.

For rimrock, locate the midpoint of the segment that describes the feature.

For wetlands, locate the approximate centroid of the feature and the estimated area.

For a spring or seep, locate the source of groundwater that feeds a pool or stream.

Exhibit 2

ELECTRONIC SUBMITTAL

In an effort to:

- improve geographic information system (GIS) data;
- improve the efficiency of GIS data creation; and
- provide a more comprehensive view of existing and proposed infrastructure;

provide a base file in *.dgn, *.dwg, or *.dxf, format of existing and proposed improvements listed in the following table, and specify layer name or number. File shall be referenced to the Texas Central State Plane (NAD83, survey feet) projection, and elevation data shall be referenced to the NAVD88 (feet) datum. Grid coordinates are recommended for alignment with City of Austin GIS data.

Is the file in (check one):

- ☐ Grid coordinates
☐ Surface coordinates

Average projection scale factor/Average combined factor (10 digits min.)

Electronic seals shall be provided or excluded in accordance with Texas Board of Professional Engineers Rules and Texas Board of Architectural Examiners Rules.

CADD files that contain more base layers than listed below are encouraged but are not required. CADD files may be locked or read-only.

Electronic files shall be submitted on a USB flash drive. The flash drive will be copied at Intake and returned to you.

The following layers are required at the time of first formal submittal.

Description	<input checked="" type="checkbox"/> if n/a	Layer Name and/or Number (please specify)
Site boundaries		
Existing lot lines or legal tract boundaries		

The following base files are required prior to site plan release.

Description	<input checked="" type="checkbox"/> if n/a	Layer Name and/or Number (please specify)
Site boundaries		
Existing lot lines or legal tract boundaries		
Easements		
Critical environmental features and buffers as depicted on plans		
Open Space ⁵		
Floodplain Delineation (existing & proposed as depicted on plan)		
Legend (may be in separate file)		

⁴ Edge of pavement, curb and gutter lines as depicted on plans, luminaires, poles, pullboxes, signal poles, and signal cabinets.

⁵ Delineation of open space as required on the site plan or subdivision. Only open spaces on the ground are required. Above ground spaces such as balconies are not required.

2. Provide an electronic copy of the following in *.pdf format with the following recommended file name convention at the time of first formal submittal.

Description	Recommended File Name
Engineer's report	[Case_Number]_Eng_report.pdf
Drainage report (if applicable)	[Case_Number]_Drg_report.pdf
Engineer's summary letter	[Case_Number]_Eng_summary.pdf
All sheets in subdivision	[Case_Number]~U[Update #]_[sheet #].pdf
Application package (i.e. application, tax certificate(s), waiver request(s), etc.)	[Case_Number]_Application.pdf

3. Provide electronic files for drainage model. Resubmittal of drainage model is required for any modification.

EXHIBIT 3

EDUCATIONAL IMPACT STATEMENT (EIS) DETERMINATION

PART A

If your project is **located in one or more of the following school districts, and requires Land Use Commission review; and meets one of the requirements listed below**, an Educational Impact Statement is required.

<input type="checkbox"/> YES	<input type="checkbox"/> NO	100 or more single family units are proposed
<input type="checkbox"/> YES	<input type="checkbox"/> NO	200 or more multifamily units are proposed
<input type="checkbox"/> YES	<input type="checkbox"/> NO	100 or more multifamily units are proposed and a tax credit is requested
<input type="checkbox"/> YES	<input type="checkbox"/> NO	project will demolish more than 50 residential existing units in a structure more than 20 years old

Please check the appropriate school district(s).

- ☐ Austin Independent School District
- ☐ Leander Independent School District
- ☐ Pflugerville Independent School District
- ☐ Hays County Independent School District
- ☐ Del Valle Independent School District
- ☐ Round Rock Independent School District
- ☐ Manor Independent School District

If an Educational Impact Statement (EIS) is required, please complete the Educational Impact Analysis (EIA) Part B.
